DECLARATION OF PRIOR INVENTION UNDER 37 C.F.R. §1.131

1. This Declaration is to establish conception of the invention in the United States at a date prior to July 17, 2001, the earliest effective filing date of U.S. Patent Application Publication No. 2003/0016804 A1 to Sheha et al. (hereinafter "Sheha"), that was cited by the Examiner in a non-final office action mailed December 3, 2004.
2. We, Kenneth H. Rosen and John A. Rotondo, inventors to the above-mentioned application, are making this declaration.

3. To establish conception prior to July 17, 2001, the following document is being submitted as evidence:

Prior to July 17, 2001, we prepared and submitted a Patent Review Request Form (a copy of which is attached hereto as Exhibit A) bearing date prior to July 17, 2001, the filing date of the Sheha publication. The invention disclosure in this form is the basis for the present application. The section entitled "Brief Description" of the form discloses transferring selective location information of a wireless calling party of the present invention as follows:

"Although there are many situations in which a person with a cellular phone will want to be located (such as for medical emergencies or traffic accidents), there are many situations where this person will want to keep his or her location anonymous for privacy or security reasons. This invention allows a user to configure his or her wireless service on a call-by-call, or on a permanent basis so that only those calls where the caller wants his or her location to be available carry location information.

To enable the capability of blocking location, the caller can either pre-configure his or her service so that location information is not conveyed with wireless calls. The user can also select on a call-by-call basis to block the location of the calls being made by entering a particular code defined for this purpose prior to making the call. In such situation, the network blocks the transfer of location information using whatever mechanism is being employed to transfer location data to called parties."

4. This invention disclosure evidences conception of the invention prior to July 17, 2001.

5. Attached is a Statement establishing the diligence of the legal representative, from the time of the applicant's conception, to a time just prior to the date of the Sheha reference, up to the filing of this application. This Declaration is submitted with a Response Under 37 C.F.R. §1.111 to the non-final office action.

6. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patents issued thereon.
